### **Cancellation of Elite Level Identification**

In the event of non-compliance with the eligibility criteria, the athlete's status may be revoked.

Except in exceptional circumstances, in the event of injury, athletes shall retain their status if they have a plan for returning to sport and undertake to follow the appropriate treatment prescribed by sports medicine specialists (sports medicine, physiotherapy, etc.).

### **Exceptional circumstances**

In the event of exceptional circumstances preventing an athlete identified during the previous season from participating in one or more of the activities outlined in this identification policy (tournament, training camp), that athlete may retain their status under certain parameters designed to verify that they remain committed to talent development.

In such cases, it is the responsibility of the athlete and his or her coach to complete the form to submit a request to Golf Québec. Official documents may be required by the Federation to review the request (e.g., medical note from the attending physician, rehabilitation plan). Subsequently, any change in the athlete's situation must be communicated in writing to Golf Québec. Ultimately, the decision made by the responsible committee within the Federation must be ratified by the Ministère de l'Éducation.
