

## Alphabetical Provincial Lader

This chart was set up to determine a ranking that allows us to select players that are 15 years and older as of August 1, 2023, for the Triple Crown competitions which include the Alexander of Tunis, Duke of Kent, and Provincial Men's Amateur Championship.

This ladder includes designated rounds played between **April 1, 2022, and June 12, 2023.**

All designated rounds that are played will be entered into the provincial ladder. We will then establish a differential for each of these rounds based on the course rating. We will **add your two best differentials** from all your rounds played and this **will provide you with your official differential for the season**

A differential is the calculation of the difference between your score and the course rating from which the round was played (ex.: a player registers a score of 80 on a course rated at 69.3, this would give him a differential of 10.7).

If you did not play a round in 2022 or wish to have a better differential for the 2023 season, you can improve your 2022 season differential for the 2023 season **until June 12, 2023.** After this date, your differential will be final for the 2023 season.

**If you are a new golfer** that want to play in provincial competitions, you can play early season competitions until June 12, 2023, to build your differential for the current year and be eligible in the Triple Crown competitions.

It is the responsibility of golfers to verify their assigned differentials and inform Golf Québec if an addition or correction needs to be made to their ranking.

If you have any questions about the ranking system or corrections that needs to be made, please contact **Diane Bruneau**, Competition Coordinator, at [dbruneau@golfquebec.org](mailto:dbruneau@golfquebec.org).

The Competition Co-Directors reserve the right to change any conditions at any time.

**COMPETITIONS THAT COUNT TOWARDS THE ALPHABETICAL PROVINCIAL LADDER BETWEEN APRIL 1, 2022, AND JUNE 12, 2023**
